STATE CLEARINGHOUSE

---

# NEWSLETTER

**January 1 through 15, 2002**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **January 1 through 15, 2002**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse.html#clearinghouse](http://www.opr.ca.gov/clearinghouse.html#clearinghouse)

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte Joung and Karen Fowler (for projects in Northern California)  
Scott Morgan and Brian Grattidge (for projects in Southern California)

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

**Make sure your hot water taps are not dripping.**

# ENVIRONMENTAL JUSTICE FORUMS 2002

Hosted by the Governor's Office of Planning & Research

<b>Tuesday, January 29, 2002</b> 1:00 p.m. – 7:00 p.m. Salinas Community Center 940 N. Main Street Salinas, CA	<b>Tuesday, February 5, 2002</b> 1:00 p.m. – 7:00 p.m. Ronald Reagan Building 300 South Spring Street Los Angeles, CA
<b>Saturday, February 9, 2002</b> 1:00 p.m. – 7:00 p.m. Dunsmuir Community Center Building 4841 Dunsmuir Avenue Dunsmuir, CA	<b>Tuesday, February 26, 2002</b> 1:00 p.m. – 7:00 p.m. San Francisco Civic Center Complex 455 Golden Gate Avenue San Francisco, CA

## What is Environmental Justice?

According to California law, environmental justice (EJ) is the “the fair treatment of people of all races, cultures, and incomes with respect to the development, adoption, implementation and enforcement of environmental laws and policies.”

## Goals and Objectives of the Forums

- Create a network of EJ contacts at the community and local, state, and federal government levels.
- Evaluate recent efforts to increase meaningful public involvement in governmental processes.
- Hold a public hearing on EJ Guidelines for local general plans.

**Public Hearing:** General Plan Environmental Justice Guidelines – begins 4:00 p.m. at each Forum.

Assembly Bill 1553 (Keeley, Chapter 762, Statutes of 2001) requires the Governor's Office of Planning and Research to prepare guidelines for addressing environmental justice matters in city and county general plans. As part of each EJ Forum, OPR will hold a public hearing to receive input prior to the preparation of the draft guidelines. There is no need for you to R.S.V.P. if you are only coming to the public hearing portion of the day, but please R.S.V.P. below for planning purposes, if you will be attending the other segments of the Forum. See attachment for more information.

## Discussion Panel

There will be a panel at each Forum intended to engage everyone in a discussion regarding meaningful public involvement in governmental decision making. Panelists will include a range of experts on public participation who will provide their insights and evaluations of recent governmental agency public participation efforts.

## Networking and Information Sharing

Organizations and agencies are encouraged to set up an informational booth regarding their EJ related activities. These booths are intended to educate others about your agency or organization and its role relating to EJ. There will be designated times during the forums for participants to

visit the booths. If you are interested in having a booth, please fill out the appropriate portion of this form and return it no later than 2 weeks before the date of the forum you wish to attend.

**For more information please contact:** Bonnie Chiu at (916) 323-9033 or  
Bonnie.Chiu@opr.ca.gov

# CEQA & Planning Case Law

## Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

### Planning Cases

<b>Case Name (No.):</b>	Tucker Land Co. v. State of California (B146384)
<b>Court, Filing Date:</b>	Cal. App. 2 <sup>nd</sup> , 12/28/2001
<b>Source:</b>	2001 Daily Journal D.A.R. 3
<b>Summary of Ruling:</b>	Constituent members of Joint Powers Authority are not liable for its contractual obligations if joint powers agreement specifies they are not.

*Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.*

# Federal Notices

## Intergovernmental Review Notices (January 1<sup>st</sup> – 15<sup>th</sup>, 2002)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

<b><u>Documents Received on Wednesday, January 02, 2002</u></b>			
2002014001	<p>Victoria Lateral and CSUDH Mainline Extension Harbor/South Bay Water Recycling project U.S. Army Corps of Engineers Carson--Los Angeles</p> <p>The proposed improvements are part of the West Basin Municipal Water District's (WBMWD) Harbor-South Bay Water Recycling project within the County of Los Angeles. As part of the WBMWD's recycled water project, this DEA represents the first phase of lateral pipeline construction. This phase consists of the construction of approximately 7,200 linear feet (LF) of transmission pipeline to service the Victoria Regional Golf Course and Park (Lateral II, Victoria Lateral), and approximately 7,600 LF of pipeline to service the California State University, Dominguez Hills (Lateral IIIA, CSUDH Mainline Extension) campus in calendar year 2002. Phased infrastructure improvements throughout the County of Los Angeles will include construction of additional recycled water distribution facilities and supporting infrastructure such as on-site Energy Development, Treatment Plant Process Expansion, and a Secondary Effluent Pump Station. Design and Construction phases will extend from calendar year 2002 through 2006.</p>	<b>EA</b>	01/21/2002
2001012030	<p>City of Santa Rosa General Plan - Santa Rosa 2020 Santa Rosa, City of Santa Rosa--Sonoma</p> <p>Revision to the General Plan and its goals, objectives and policies to provide a comprehensive long range plan for the City of Santa Rosa and its residents.</p>	<b>EIR</b>	02/15/2002

The applicant proposes to expand St. Michael's School to accommodate 540 students. The expansion includes classrooms, a library, an amphitheater, and recreational areas. The project area is located on an approximate 14 acre parcel at 15546 Pomerado Road, in the City of Poway, San Diego County.	<b>NOD</b>	

## CEQA Daily Log

Documents Received during the Period: 01/01/2002 - 01/15/2002

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Wednesday, January 02, 2002</u></b>			
2001091026	<p>Reservoir Number 6 Pipeline Project Rowland Water District --Los Angeles</p> <p>California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement (Agreement) pursuant to Section 1601 (SAA#5-2001-0379) of the Fish and Game Code to the project applicant, Mr. Ken Deck, Rowland Water District. The applicant proposes to alter the streambed and bank by constructing an 8-inch potable water pipeline across an ephemeral drainage located in Schabarum Regional Park. A total linear distance of 4,100 feet of pipeline is proposed. A 40 foot construction corridor, 20 feet on each side of the pipeline, will be needed for construction purposes, but at the unnamed drainage, the construction corridor will be reduced 10 feet to accommodate the trencher and minimize impacts to the drainage. Support equipment will stage from the adjacent landscaped portion of the park. To avoid impacts to southern willow scrub habitat and native grasslands, the drainage crossing has been adjusted to cross where a previous hiking trail exists. The proposed project shall not impact more than 200 feet of stream channel, no riparian vegetation shall be impacted.</p>	<b>NOD</b>	
2001102035	<p>Scott-Noga Trustee Tree Removal Humboldt County --Humboldt</p> <p>The applicant proposes a California Department of Forestry and Fire Production "Fire Hazard Trees within 150 feet of a Residence Exemption". The trees to be removed are located on APN 500-241-02, and are within 150 feet of a residence and garage located on APN 501-241-20. The applicant proposes to remove 9 young growth redwood and spruce trees and two (2) old growth redwood trees. Approximately 54 trees of a variety of species will remain on the property after the timber removal operations, including three (3) old growth redwood trees. No new roads or landing areas will be developed with the project; an existing skid road on the subject property and an existing log landing located on APN 500-231-07 will be used for the timber removal operation. The proposed project will generate approximately 16-20 truck loads of timber or approximately 50 thousand board feet. The timber operations will be limited to between the hours of 8:00 AM and 6:00 P.M. Monday through Friday, and are expected to be completed within two weeks, weather permitting. There may be up to five (5) logging trucks entering and leaving the site any given day. The haul route used by the trucks will include Golf Course Road, Old Arcata Road, Bayside Cutoff and Highway 101. The slash from the proposed timber harvest is proposed to be chipped or burned. Exposed areas of bare mineral soil will be covered by mulch or an equivalent material to prevent soil erosion. The subject parcel and neighboring properties are served with on-site sewage disposal and on-site water systems.</p>	<b>NOD</b>	
2001102038	<p>Annexation of Individual Parcels in the City of Portola Portola, City of Portola--Plumas</p> <p>The project applicants propose to annex the subject parcels that are currently developed and not connected to City sewer and/or water within the City of Portola. There is no proposal to complete a development project on the land; this application is only regarding annexation. Any future proposal for development or other project will be subject to CEQA review.</p>	<b>NOD</b>

1998122017	Custom House Retail/Commercial Office Building (EIAQ-3390) Placer County Planning Department Tahoe City--Placer Replace previously existing service station with retail commercial/office building.	<b>Neg</b>	02/01/2002
2002011013	Jefferson New Primary Center No. 6 Los Angeles Unified School District Los Angeles, City of--Los Angeles Proposed primary center for grades K through 2 on a 1.8-acre site in south-central Los Angeles. The school would serve a maximum of 504 students per year on a Concept 6 multi-track year-around schedule. The proposed school complex would have 12 classrooms, 2 kindergarten classrooms, 2 special education classrooms, administrative offices, and a multi-purpose/library facility. The school would be housed in a new two-story building with a subterranean parking garage for 36 automobiles.	<b>Neg</b>	02/03/2002
2002011014	Conditional Use Permit No. 01-066 Los Angeles County Department of Regional Planning Agoura Hills--Los Angeles The proposed project is the application for a conditional use permit for on-site remedial grading, and the concurrent removal of excess solid fill material to complete County Grading Permit #95-0912-002. Approximately 40,000 cubic yards excess fill material will be removed from the project site, while 96,600 cubic yards will be redistributed to complete prior permit. The proposed grading will yield a level, manufactured pad site measuring approximately 2.2 acres for future residential development. The site was previously graded and situated with 40,000 cubic yards excess fill materials. An additional 2,100 cubic yards will be spread to improve drainage flow as depicted under Revision 1, per Exhibit A-1. All proposed grading would occur within the project envelope of Grading Permit #95-0912-002.	<b>Neg</b>	02/06/2002
2002011015	Middleton New Primary Center Los Angeles Unified School District Huntington Park--Los Angeles Construction and operation of a new 33,000 square-foot primary center to accommodate 380 two-semester search and up to 532 students on a Concept 6 schedule. 2002012018	<p>Pacific Marine Farms Aquaculture Project Fort Bragg, City of Fort Bragg--Mendocino</p> <p>The project consists of three major components: The abalone production facilities, shrimp production facilities, and the trout production facilities. Some project improvements that are common to all three components include the construction of the ocean intake lines, the ocean outfall line, and the pumps used to operate these lines. Construction will take place in two phases. Phase 1 will take about four months to construct and will include construction of: one ocean intake line and intake pump; one discharge line to the ocean; security fencing and security office; administrative office; the trout production system; the shrimp production system; and the abalone hatchery facilities. Phase 2 will be completed by the fourth year of operation and includes construction of: a second ocean intake line; the abalone grow-out facilities; and an educational research building. The project also includes the construction or re-construction of several buildings on the site, including administration offices, an educational facility building, a security building, a storage building, shrimp production buildings, blower unit buildings, an ozone/aerator building, an ultraviolet disinfection building, pumphouses, and some existing buildings.</p>	<b>NOP</b>	02/05/2002

<b><u>Documents Received on Monday, January 07, 2002</u></b>			
2002011025	<p>(5,200 square feet); drainage improvements; perimeter fencing and landscaping.</p> <p>EA SD 11-01 Kern County Planning Department Shafter--Kern</p> <p>(a) An amendment to the Western Rosedale Specific Plan from R-1A (Intensive Agriculture-Minimum 20-acre parcel size) to SI (Service Industrial); (b) a zone change from A (Exclusive Agriculture) to M-2 PD (Medium Industrial - Precise Development); and (c) the exclusion of 40-acres from the boundaries of an agricultural preserve. The project site consists of two recently created, undeveloped parcels totaling 40 acres. Although agriculturally zoned, the parcels have not been actively farmed since 1999. Intent is to develop the site with industrial uses; however, no specific development is being proposed at this time. The purpose of the SI Map Code/M-2 Zone District is to designate areas for commercial or industrial activities that entail general manufacturing, processing or assembly activities and typically involve outdoor storage or use of heavy equipment. Such uses generally produce significant air or noise pollution and are visually obtrusive; however, such uses may not produce fumes, odors, dust, smoke, gas, or vibrations extending beyond district boundaries. The purpose of the PD Combining District is to identify areas with unique site characteristics or environmental conditions or areas surrounded by sensitive land uses to ensure development in such areas is compatible with such constraints. Development in the PD Combining District is discretionary and, therefore, subject to further environmental review. No use can be established or developed in the PD Combining District until an application for development is received and deemed complete and an environmental document, if required, it is completed so the request can be considered at a regularly scheduled public hearing. As proposed, water supply and sewage disposal would be by Superior Mutual Water Company and North of the River Sanitary District No. 1, respectively. Access would be via Seventh Standard Road and Cherry Avenue which are designated as arterial and collector alignments, respectively by the Circulation Element of the Western Rosedale Specific Plan.</p>	<b>Neg</b>	02/06/2002
2002011026	<p>La Costa Canyon High School Classroom and Facilities Additions San Dieguito Union High School District Carlsbad--San Diego</p> <p>The proposed project, if implemented, would result in the construction of 12 new classrooms in roughly the center of the existing La Costa High School campus. A 960-square foot addition to the existing Food Services building is also proposed. These facilities are designed to relieve existing overcrowding on campus. No expansion of the existing student body is anticipated with this development.</p>	<b>Neg</b>	02/05/2002

2002012017	Morrison Subdivision - Tentative Tract Map Alpine County --Alpine The project is a residential subdivision of 22 single family lots on 71.76 acres. The site is located on the north side of Hot Springs Road, approximately one mile west of Markleeville. The project is proposed in two phases. The first phase will consist of thirteen lots on the western portion of the site. Nine additional lots on the eastern portion of the site are planned for the second phase. A new access road connecting to Hot Springs Road will be constructed. An emergency only access road will extend through the adjoining property east of the site to provide a looped connection back to Hot Springs Road. A water system for fire protection only, not domestic use, is proposed to serve the entire subdivision. The system will include storage and fire hydrants along the new road within the subdivision. Domestic water supply and wastewater treatment will be provided by individual on site wells and septic systems.	<b>Neg</b>	02/08/2002
2002012019	Ceres Professional Plaza Subdivision (S-01-11) Chico, City of Chico--Butte Proposed subdivision to create four parcels: Lot 1: 1.2 acres; Lot 2: 1.04 acres; Lot 3: 0.91 acre and Lot 4: 2.84 acres for future office development.	<b>Neg</b>	02/05/2002
2002012020	The View at Canyon Oaks Subdivision (500-03) Chico, City of Chico--Butte Subdivide a 68.06 acre parcel into 11 parcels consisting of seven single-family lots (with an average lot size of 4.32 acres), a 0.87 acre lot for a private street, a 7.24 acre lot for public utility and open space, and two parcels for resource conservation and open space purposes. A total of 36.93 acres are to remain undeveloped. Overall project density is 0.22 units/acre.	<b>Neg</b>	02/05/2002
1998091004	Site Utilization Plan Revision #17 to Planned Development (P-D) #16 Merced, City of Merced--Merced Modification of the traffic impacts and mitigation measures in the previous EIR to substitute mitigation measures for measures no longer considered feasible, and reflect changes in project phasing. The applicant has indicated their intent to submit a conditional use permit application to develop approximately 290,000 sf of commercial floor area on the central 24.3 acres of the project site (Phase I).	<b>SIR</b>	02/20/2002
1990020181	Legends Village Units 4 & 5 Vesting Tentative Subdivision Map Modesto, City of Modesto--Stanislaus This is a precise plan for Area No. 28 of the Village One Specific Plan that designates 44.4 acres for approximately 200 single-family homes.	<b>NOD</b>	
1992052017	General Plan Master EIR Update Modesto, City of Modesto--Stanislaus This is a rezoning to allow a three-story, 40-unit apartment complex.	<b>NOD</b>

<b><u>Documents Received on Monday, January 07, 2002</u></b>			
2000122013	Brentwood General Plan Update Brentwood, City of Brentwood--Contra Costa The project is an update of the current General Plan for Brentwood adopted in 1993. The major goals for the General Plan Update are to reduce residential growth, increase job-generating land uses, and create a plan that will preserve and enhance the quality of life for Brentwood's citizens while providing for future growth and development for jobs, housing, public facilities, and community resources. The General Plan Update project involved amendments to the Land Use, Circulation, and Growth Management elements.	<b>NOD</b>	
2001042089	San Joaquin Council of Government Regional Transportation Plan DEIR 2001-2025 San Joaquin County Council of Governments --San Joaquin The 2001 Regional Transportation Plan is a long-range regional transportation plan that provides a blueprint for future transportation improvements within San Joaquin County and is based on specific transportation goals, objectives, and policies.	<b>NOD</b>	
2001102049	Reclamation Plan 00-03, Gray Rocks Quarry, Calaveras Cement Company Shasta County Shasta Lake--Shasta The proposal is for approval of a proposed new reclamation plan for an existing limestone quarry. The plan covers both the existing mined area and the expansion of the quarry to a total of approximately 220 acres. The quarry is on six parcels totaling approximately 755 acres. The plan shows how the quarry would be reclaimed in 2050 if mining operations are completed at that time.	<b>NOD</b>	
2001111060	Fairmead Paleontological Museum and Visitor Center at the Fairmead Landfill - ND ENG2001-03 Madera County Planning Department --Madera The project consists of a proposal to construct a paleontological museum and visitor's center on a closed portion of the landfill to display the fossils found during the construction of the Fairmead Landfill Expansion.	<b>NOD</b>	
2001112050	Mount Livermore Landform Restoration Parks and Recreation, Department of Tiburon--Marin Recontour the top of Mount Livermore to approximate its historic shape. Remove 1100 linear feet of access road. Construct a new access trail, install walkway, picnic table, and interpretive panels to accommodate visitor use.	<b>NOD</b>	
2001112062	Camino Heights Wastewater Treatment Plant Upgrades Project El Dorado Irrigation District --El Dorado The project is designed to comply with the Waste Discharge Order No. 5-01-100, providing for construction of groundwater monitoring wells around the wastewater treatment facilities and spray disposal field to assess the impact of the discharge on water quality; a tailwater control system to capture excess surface runoff from the disposal field and return it to Pond 3; and chlorination facilities necessary to	<b>NOD</b>

	achieve specific limits on total coliform. Five groundwater monitoring wells will be installed in the vicinity of the three oxidation ponds and the spray disposal field to assess the impact of wastewater discharge on groundwater quality. The tailwater return system will consist of a V-ditch and collection pipe to capture surface runoff and a return flow pump station to receive captured surface runoff for return to Pond 3. A 500-gallon self-contained tank of sodium hypochlorite will be located west of the chlorination building within the existing fence enclosure.		
2002019107	Streambed Alteration Agreement R3-2001-0859/THPs 1-01-059 MEN, 1-01-240 MEN and East Radar THP Forestry and Fire Protection, Department of --Mendocino The applicant proposes the replacement of an existing 24-inch culvert with a rock ford crossing along an existing seasonal road over a tributary to Doty Creek, Mendocino County. The project also proposes the drafting of water from six locations for dust abatement, in the Garcia River and in the South Fork Garcia River. Water drafting is proposed for timber harvest plans 1-01-059 MEN and d1-01-240 MEN and East Radar THP (not yet submitted). The California Department of Fish and Game (DFG) is executing a Lake and Streambed Alteration Agreement R3 2001-0859, pursuant to Section 1603 of the Fish and Game Code to the project applicant, Mr. Russ Shively, Mendocino Redwood Company, LLC.	<b>NOD</b>

	intersection of the future Bollinger Canyon Road alignment and A Street. The project, nature, purpose, and beneficiaries are described as follows: The Dublin San Ramon Serviced District proposes to construct a 2.3 million gallon pressure zone 3 potable water reservoir and an approximately 0.5 mile long service road to the reservoir site. The project will provide pressure zone 3 potable water service to serve planned and approved residential development in the Dougherty Valley Specific Plan area.		
2002012026	Castro Valley Library Replacement Program Alameda County --Alameda The County of Alameda will construct a new, approximately 41,200 square foot, single-level library facility on the 2.95-acre site. The library will accommodate the existing collection of an estimated 105,745 volumes with a total capacity of 161,100 volumes and up to 29,000 multimedia items. The project will include 145 parking spaces, landscaped areas, and a meeting room with capacity of 180.	<b>Neg</b>	02/07/2002
1999101050	Crazy Horse Sanitary Landfill Solid Waste Facilities Permit Revision Project Salinas Valley Solid Waste Authority --Monterey The proposed project would revise the current Crazy Horse Sanitary Landfill (CHSL) Solid Waste Facilities Permit (SWFP) to modify the operations of the CHSL. The SWFP revisions would allow: * An increase in the permitted traffic volume to the site; * The stockpiling of imported soil at the CHSL site for daily cover uses; * An increase in the amount of daily waste intake tonnage authorized as a result of the pending closure of the LRL, and the subsequent disposal needs for that waste stream; * The processing of Curbside Collected Yard Waste; * Updates in the remaining site capacity and site life estimates; * A change in contract operator from Waste Management, Inc. to Norcal Construction and Engineering.	<b>NOD</b>	
2001032072	Arastradero Preserve Trails Management Plan Palo Alto, City of Palo Alto--Santa Clara The subject proposal would allow the construction of a visitor information center, referred to as the Gateway Facility because of its location near the main entrance to the Arastradero Preserve. The Gateway Facility consists of three, single-story structures totaling 1,177 square feet. The structures include office and educational meeting space, storage areas, and public restrooms. Ancillary features, such as bicycle racks, drinking fountains, informational signage, demonstration planting garden and an atgrade footbridge are also included in the project. The Gateway Facility is situated adjacent to an existing public parking lot that is capable of accommodating users of the facility without the need of expansion.	<b>NOD</b>

2001091027	San Benito High School San Benito High School District Hollister--San Benito Development of a Freshman Campus for San Benito High School.	<b>NOD</b>	
2001101070	Hospital Road Seasonal/Temporary Low Water Crossing San Benito County Hollister--San Benito The project involves the annual construction and removal of a seasonal, low-water crossing of San Benito River at Hospital Road, between Cienega Road and Southside Road, in San Benito County. The project will be undertaken yearly until a permanent low-water crossing structure can be constructed to replace a crossing structure that was destroyed by major storm events in 1998 and 1999. At the end of the seasonal heavy rainfall period (normally after May 15th), County work forces will construct an earthen roadbed with base rock surface and metal culverts, withing th eSan Benito River channel. Later, befroe the start of heavy winter rains (before November1st). The roadbed and culverts will be removed, and the stream channel will be restored to its previous condition. The seasonal roadbed measures approximately 775 feet long and five (5) feet high at the maximum. The width of the temporary roadway structure will vary from 18 feet at the top to approximately 60 feet at the bottom with a side slope ratio of 2 to 1 (horizontal to vertical). Approximately 2000 cubic yards of material will be used to construct the roadway. Two 4 foot diameter corrugated metal pipe (CMP) culverts approximately 60 feet in length, will be installed to allow any low-flow water levels to pass under the roadbed. During the rainy season (from November 1 to May 15th), the earthen material and associated culverts will be pushed up out of the channel and piled for storage on an upper terrace, above floodstage. Silt fences and hay bales will be installed to prevent fines from washing into the river.	<b>NOD</b>	
2001102049	Reclamation Plan 00-03, Gray Rocks Quarry, Calaveras Cement Company Shasta County Shasta Lake--Shasta The proposal is for approval of a proposed new reclamation plan for an existing limestone quarry. The plan covers both the existing mined area and the expansion of the quarry to a total of approximately 220 acres. The quarry is on six parcels totaling approximately 755 acres. The plan shows how the quarry would be reclaimed in 2050 if mining operations are completed at that time.	<b>NOD</b>	
2001102053	Aqua Dulce Apartments; STP 00-072RPL San Diego County Department of Planning and Land Use --San Diego The project proposes the construction of four two story duplex buildings (eight total dwelling units), each consisting of approximately 1,540 square foot single-family residences with a two-car attached garage along with associated guest parking and landscaping. Pursuant to MSCP, the project applicant has purchased 0.30 acres of non-native grassland habitat mitigation credits at the San Vicente Conservation Bank.	<b>NOD</b>

2001102056	Vintage Oaks Roseville, City of Roseville--Placer General Plan Amendment, Rezone and Development Agreement applications to change the land use and zoning entitlements of 34.37 acres of land. The proposed resultant land uses and implementing zoning are 14.33 acres Light Industrial, 8.52 acres Business Professional, and 9.80 acres Single Family Residential with a residential unit allocation of 49 units and 1.71 acres of roadways. In addition, the applicant requests approval of a Tentative Subdivision Map application to subdivide the 34.37 acre parcel into 4 Light Industrial parcels, 11 Business Professional parcels, 49 single family residential lots, and 2 wetland preservation parcels. The applicant also requests approval of of an Affordable Purchase Housing Development Agreement which requires 4 of the 49 single-family dwellings to be affordable to low and median income households.	<b>NOD</b>	
2001111054	Athletic Field Lights at Pomona High School Pomona Unified School District Pomona--Los Angeles Installation of elevated field lights at an existing sports field within the confines of a presently developed high school campus.	<b>NOD</b>	
2002018219	Streambed Alteration Agreement (5-2001-0406) Regarding the Collection of Native Salt Marsh Vegetation for the Jack Dunster Marine Biological Reserve Development Fish & Game #5 Long Beach--Los Angeles The Operator proposes to alter the streambed and bank by carefully harvesting 100 individual plant plugs of cord grass from 100 different locations within the Los Cerritos Wetland Marsh Area. In addition, tip cuttings of seepweed and western marsh-rosemary shall be harvested. The harvesting of these native species will be used for a local salt water wetland restoration project known as the Jack Dunster Marine Biological Reserve Development Project. The planting of local native stock ensures the introduction of locally adapted genotypes and will avoid the breakup of co-adapted traits. The harvest would be completed by the end of January (prior to nesting season) and shall be done by boat as to not disturb wildlife in the area and reduce trampling of vegetation. All removal sites shall be photographed and monitored to show that the proposed project shall not impact the existing salt marsh vegetation.	<b>NOE</b>	
2002018220	Transfer of Coverage to El Dorado County APN 81-085-01 (Willsey) Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 990 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	<b>NOE</b>

This meets the PIER goals of Improving energy cost/value, improving the environment, public health and safety, and providing greater choices for California consumers.	<b>NOE</b>	
2002018237	Affordable Renewable Energy Technologies Research, Development and Demonstration Program Energy Commission Tustin--Orange Commonwealth Energy Corporation proposes to develop and implement a geographically focused renewable energy research, development, and demonstration program with an ultimate emphasis of improving the affordability of these electric generation resources. The overall goals of the proposed Commonwealth Biogas/PV Micro-Grid Renewable Resource Program include 1) the development and implementation of an approach for tailoring resource development to the specific needs and resources of local areas, or mini-grids; 2) to improve the affordability of renewable energy produced from landfill, wastewater and ag-waste digester gas and photovoltaics; 3) to demonstrate the potential for the use of advanced gasification processes to reduce the cost of residual or sludge disposal; 4) to demonstrate and update the application of a performance evaluation rating system for building integrated systems; and to improve the transfer of this information on system and module performance to consumers and the supply channel stakeholders; and to demonstrate the potential for demonstration applications that add substantial value to building integrated PV technology, and simultaneously take advantage of economies of scale by installing larger PV systems under various targeted arrangements.	<b>NOE</b>	
2002018238	Ocean Wave Energy Resource Assessment for California Energy Commission --San Diego The purpose of this contract is to assess the ability to use ocean-wave energy resources off the California coast to provide affordable, reliable, clean and safe electricity, and identify the optimal locations for developing ocean wave energy systems. The project involves estimating how much of the potential ocean-wave energy can be harnessed based on technical, economic and environmental considerations. This meets the PIER Program objective of advancing science and technology in the renewable energy area by providing up-to-date information on renewable energy resources.	<b>NOE</b>	
2002018239	Cool Roof Colored Materials Energy Commission Berkeley--Alameda The purpose of this contract is to develop and introduce high infrared reflectivity (cool) colored roofing materials into the roofing market. Cooler roofs will result in lower attic and outdoor ambient temperatures, leading to less need for air conditioning and lower smog formation potential. This meets the PIER goals of improving	<b>NOE</b>

2002018240	<p>electricity sufficiency, and improving the environmental and public health.</p> <p>California Biomass Consortium Energy Commission --Sacramento</p> <p>The purpose of this contract is to establish and administer a California Biomass Consortium to provide a unique forum for coordinating biomass energy systems development beneficial to the state. This consortium will provide additional expertise to the Commission in helping to achieve timely review and implementation of policy concepts and proposed system and technology innovations. Additional goals include initiating activities under several of the primary topical areas including research, development, demonstration, and deployment, education and training, public outreach, policy, and standards. This project supports the PIER renewable energy research area. This project assists in meeting all five of the PIER objectives in improving the cost, value, environmental and public health costs/risks, reliability, quality, and safety of California electricity, and in maximizing the market connectivity of biomass technologies developed through the PIER program.</p>	<b>NOE</b>

	allow the creation of lots less than 2 acres in size in the Agricultural-Residential 2 zone.		
1990021037	Inland Feeder Metropolitan Water District of Southern California Rancho Cucamonga--San Bernardino, Riverside A Final Environmental Impact Report/Environmental Assessment for the Inland Feeder Project was certified in February 1993. Since certification of the Final EIR/EA and subsequent Addenda, additional minor modifications to the original project are needed. These modifications involve using an existing gravel pit at Whitewater north of Interstate 10 and an area next to Strawberry Creek for disposal of tunnel boring tailings known as "muck" from the Arrowhead Tunnels of the adopted Inland Feeder Project. Additional modifications include a construction staging area and temporary access realignment at Strawberry Creek and a tie-in connecting the Inland Feeder Pipeline to the Foothill Feeder Pipeline on an eight-acre parcel located southeast of the town of East Highland in San Bernardino County.	<b>NOD</b>	
1996041030	Specific Plan No. 2 Moorpark, City of Moorpark--Ventura California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to section 1603 (SAA# 5-2001-0176) of the Fish and Game Code to the project applicant, Dennis Mitchem or Morrison-Fountainwood-Agoura. The applicant proposes to construct 570 single family units, a school, park, a NPDES basin and open space, requiring the obliteration of several small drainage channels. The project is located in Moorpark in Ventura County.	<b>NOD</b>	
2001031063	Woodlands Specific Plan Supplemental EIR (ED00-428) San Luis Obispo County --San Luis Obispo An amendment to the Growth Management Ordinance (GMO - Title 26) adding a new section establishing a different residential growth rate for The Woodlands Specific Plan Area from that already established in the GMO. The amendment would allow project buildout (1,320 residential units) to occur within a 15-year period, in accordance with the adopted Specific Plan, rather than at the slower rate of 2.3% per year as would otherwise be required by Title 26.	<b>NOD</b>	
2001051011	Old Coast Highway Bridge Replacement Santa Barbara County Buellton--Santa Barbara Replacement of Bridge 51C-113 over Nojoqui Creek. The project has been approved for funding through the Federal Highway Administration (FHWA) Highway Bridge Rehabilitation and Replacement Program (HBRR). Erected in 1916, the bridge has outlived its normal 50-year life span and does not meet modern design and safety standards because of structural deficiencies. The County seeks to replace the existing arch structure with a new single-span, precast concrete design capable of accommodating modern traffic and bridge loads. The work also includes construction of new approaches on each side of the bridge, slope reconstruction, and drainage improvements.	<b>NOD</b>

2000021012	Sand Canyon Joint Venture Project Santa Clarita, City of Santa Clarita--Los Angeles Project Site 1 is requesting approval of the subdivision of 34.3 acres into 63 residential lots, four open space lots and one debris basin lot. The project would also require approval of an oak tree permit for grading around a heritage oak tree, conditional use permit for the import of 300,000 cubic yards and clustering of residential lots to stay away from the secondary ridgeline, and hillside development review because the project is located in a hillside area. Project Site 2 is requesting a General Plan Amendment from RS, CC, and RVL to RS and CC. The zone change request would consist of the project going from CCPD, RS, and RVL to CCPD, RS, and MHP. The applicant is also requesting approval of the subdivision of approximately 55 acres into six commercial lots, twenty-four single family residential lots, two open space lots, and a designated remainder lot for the mobile home use. A CUP is required to implement the PD designation, to export 300,000 cubic yards of earth, and to exceed the 35 foot height limit to allow 40 feet for the commercial building. The project request includes a hillside application due to the slopes on the project site and a secondary ridgeline.	<b>EIR</b>	02/27/2002
2002012052	Proposed Adoption of Rule 485-Architectural Coatings Sonoma County --Sonoma The proposed adoption of NSCAPCD Rule 485-Architectural Coatings establishes VOC limits for certain categories of architectural coatings regulated by the Northern Sonoma Air Pollution Control District. Other components of the rule include definitions, test methods, standards for painting practices and thinning of coatings, container labeling requirements, and reporting requirements. The rule is based on the California Air resources Board's Suggested Control Measure (SCM).	<b>EIR</b>	02/27/2002

2002011046	ZAP 00-130/LOG 00-08-040/Sprint PCS-Felicita Park SD-697 San Diego County Department of Planning and Land Use Escondido--San Diego The proposed project comprises a 45-foot monopine with three sector arrays with three antennae per sector for a total of nine antennae. The monopine will be located on an approximately 320 square-foot platform area projecting out from the slope that will house the related exterior radio and power cabinets within an enclosure. The platform base will be approximately eight feet above ground level at its downhill edge and is proposed to have a 12-foot high equipment enclosure resembling a rustic shed-like building, to bring the total height to approximately 20 feet above ground level. Landscaping is proposed around the site perimeter.	<b>Neg</b>	02/12/2002
2002012046	Ralph's Ranches (American Tower Corp) (Mud Lake Site) Use Permit (UP-01-55) Siskiyou County Planning Department --Siskiyou The applicants request approval for a Use Permit to construct an unstaffed wireless communications site. American Tower Corporation builds wireless communications towers and leases antenna space to carriers. The proposed project includes constructing a single 150-foot high metal lattice tower that would support 3 panel antenna arrays, 2 paging whip antennas, 2 microwave dishes and ground space for up to four equipment shelters. All the facilities would be within the 10,000 square foot (100 feet x 100 feet) fenced lease area on the site. At build-out, four sets of antennas would be mounted at specific intervals between 120 feet and 150 feet on the tower. No propane tank or generator is proposed. The applicants propose to install a motion activated light on the tower structure. Only one low-wattage, manually controlled light would be allowed on each equipment shelter.	<b>Neg</b>	02/15/2002
2002012047	Shackleford Creek Bridge Siskiyou County Planning Department Fort Jones--Siskiyou The Siskiyou County Department of Public Works proposal to replace plan designation includes flood, geologic and erosion hazard area.	<b>Neg</b>	02/14/2002
2002012048	Carrico Lot Line Adjustment, LLA-01-13 Humboldt County Planning Department Blue Lake--Humboldt A Lot Line Adjustment between APN 516-211-12 (Parcel 2), 516-211-17 (Parcel 1) and 516-211-19 where the acreage of 516-211-19 would be merged with Parcel 1; Parcel 2 would be reconfigured and Parcel 3 would become a portion of the Parcel 2. All three parcels are currently undeveloped. The purpose of the lot line adjustment is to allow for development of the three parcels in accordance with the physical features of the property. On-site water and on-site sewage disposal systems would have to be developed for each parcel.	<b>Neg</b>	02/14/2002
2002012049	Brouner's Hilltop Wireless Antennae (EIAQ-3643) Placer County Planning Department Roseville, Citrus Heights--Placer 70' wood monopole with 3 slim-line panel antennas mounted at top and ground based equipment storage cabinets to house operating equipment.	<b>Neg</b>	02/12/2002

2002012056	Critical Water Shortage Purchasing Program Water Resources, Department of -- Pursuant to the California Environmental Quality Act (CEQA) requirements, the Department of Water Resources will prepare a programmatic EIR for development of a Critical Water Shortage Reduction Marketing Program (CWSRMP). The PEIR will address recommendations of the Governor's Advisory Drought Planning Panel that the Department implement a Critical Water Shortage Reduction Marketing Program. The Department will identify critical water needs for urban and agricultural water uses; develop criteria to prioritize and select sources of water; and identify, analyze, and develop implementation actions that will form programmatic action alternatives for the CWSRMP. In addition, the Department will develop a contingency plan to reduce the impacts of critical water shortages for agricultural and urban water users, procedures for purchase and storage of water; and mitigation measures for impacts to local water users and people depending on water supplies. During the operation of the programmatic EIR, the Department will facilitate involvement of interested stakeholders through appropriate meetings and provide assistance in responding to resource agency consultation requirements. The Department expects to complete the draft PEIR in August 2002.	<b>NOP</b>	02/13/2002

The facility permit has not been updated since that time. The property is owned by the County of Imperial. The Imperial County Local Enforcement Agency (LEA) has not required that the County of Imperial Department of Public Works update its Solid Waste Facility Permit due to it's eminent upcoming closure. However they do require that an updated revision to the Final Closure/Postclosure Maintenance Plans be prepared. These plans have been prepared by Brian A. Stirrat and Associates for the Department of Public Works. The Brawley Solid Waste Site is nearing final closure which is expected March 2002.	<b>Neg</b>	02/13/2002
2002011051	Salton Sea On-Water Fish Recovery Pilot Project Salton Sea Authority --Imperial The fish community in the Salton Sea experiences large, periodic die-offs. The Salton Sea Authority would conduct a 12-month fish recovery pilot project, which consists of removing fish from the surface of the Sea during die-off events. The pilot project would determine what effect fish recovery would have on the water quality in the Salton Sea. A portion of Playa Bob's RV Park, which is no longer used for recreational purposes, would be used as a base of operations for the project. The base of operations would be located approximately 0.8 miles west of Highway 111 on an approximately 0.5 acre site accessed by an existing dirt road. The existing dirt road would be re-graded and temporary structure would be placed on the site for the 12-month period. The total amount of ground disturbance would be approximately 0.8 acre. Once construction improvements have been made, an on-site duty manager would be available 24-hours per day, 7 days per week for 12 months to receive notification of an event (fish die-off). Employees would be dispatched within 12 to 24 hours with two recovery vessels and one work vessel, which tows the non-motorized with the cargo container, to retrieve the dead fish.	<b>Neg</b>	02/13/2002
2000091060	Tustin Avenue Widening Anaheim, City of Anaheim--Orange The project proposes improvements to approximately 405 meters (1,330 feet) of Tustin Avenue, extending from the Santa Ana River bridge to approximately 183 meters (600 feet) south of La Palma Avenue. The project involves the addition of one through lane in each direction on Tustin Avenue. The construction of this lane would allow the overcrossing section of Tustin Avenue to be consistent with the	<b>NOD</b>

	lane configuration north of the proposed project. There would also be modifications to the SR-91 east bound-off. A sidewalk would be added along the east side of Tustin Avenue.		
2001072122	Gardner Mountain Plan Area Statement Proposed Amendment South Lake Tahoe, City of South Lake Tahoe--El Dorado Amend Plan Area Statement (PAS) #112 to create Special Area #2, which would encompass only the properties owned by Accessible Space at 714 and 750 Emerald Bay Road. In addition to the permissible uses already in the plan area, multi-family housing would be permissible in Special Area #2, as a special use, at a density of up to 8 units per acre. Transfer eighteen Residential Bonus Units from PAS #110 for use within the new Special Area. Add "Transfer of Development Rights Receiving Area for Residential Bonus Units (Special Area #2 only)" and "Multi-Residential Incentive Program (Special Area #2 only)" to PAS #112's Special Designations. Include a special policy that states: "If Special Area #2 is developed for multiple family housing, the following special provisions apply: The forested character of the land adjacent to Highway 89 will be preserved; Buildings will be massed in such a way as to blend with the character of the Gardner Mountain area using a mix of building sizes/heights; Parking will be screened within the interior of the property; and The closest bus stop to the property will be improved within the public right-of-way (e.g., addition of a bus shelter) and a pedestrian connection to the property will be established."	<b>NOD</b>	
2001091002	E.A. No. C-01-130 Conditional Use Permit Application, Revisions to City of Fresno, Surface Water Treatment Plant Fresno, City of Fresno--Fresno Minor revisions to the site plan and operational statement of a previously-approved 20 million gallon per day surface water treatment plant with related infrastructure (approval of surface water treatment plant was done through City of Fresno CUP No. C-98-121).	<b>NOD</b>	
2001091031	River Trails Recharge Basin Orange County Water District Orange--Orange The 7.5-acre site, owned by OCWD, will be used to percolate water into the groundwater basin, to help meet the increasing water demand of the 2.2 million people living and working in the area served by OCWD.	<b>NOD</b>	
2001091138	Release of 2001 Castaic Creek Flood Flows to Castaic Lake Water Agency Newhall County Water District --Los Angeles The California Department of Water Resources (Department) proposes to enter into a one year agreement to allow the transfer of 8,786 acre-feet of the 2001 Castaic Creek flood flows (storm waters) to Castaic Lake Water Agency (CLWA). These flood flows are normally retained in Castaic Lake until May 1 of each year pursuant to a 1978 Conservation Agreement (the Agreement) the department has with United Water Conservation District, Newhall Land and Farming Company, Newhall County Water District, and the County of Los Angeles, collectively the Downstream Users. The Department will retain 1,200 acre-feet of 2001 Castaic	<b>NOD</b>

	Creek flood flows to CLWA without expectation of repayment or compensation. CLWA will use the water to meet its residential and municipal demands for the 2001 water year.		
2001102049	Reclamation Plan 00-03, Gray Rocks Quarry, Calaveras Cement Company Shasta County Shasta Lake--Shasta The proposal is for approval of a proposed new reclamation plan for an existing limestone quarry. The plan covers both the existing mined area and the expansion of the quarry to a total of approximately 220 acres. The quarry is on six parcels totaling approximately 755 acres. The plan shows how the quarry would be reclaimed in 2050 if mining operations are completed at that time.	<b>NOD</b>	
2001112041	Bijou/A1 Tahoe Community Plan Proposed Amendment, Bijou District Addition of Time Share Use South Lake Tahoe, City of South Lake Tahoe--El Dorado This amendment would modify the permissible use matrix for the Bijou District of the Bijou/A1 Tahoe Community Plan. In addition to the permissible uses already in the district, Timeshare - Residential Design would be permissible on certain parcels within the Bijou District, as a special use, at a density of up to 15 units per acre. Any project level timeshare application must provide the CSLT with an analysis of housing impacts and financial impacts and mitigate any adverse effects.	<b>NOD</b>	
2002018291	State Route 16 Flashing Beacon Installation Caltrans #3 --Yolo Caltrans proposes to install a four-way red traffic signal and intersection lighting at the intersection of State Route (SR) 16 and County Road 89. Advanced flashing beacons are also proposed approximately 250 meters (820 feet) from the intersection, in both east and westbound directions of SR 16. All proposed work and staging will occur within the existing State right-of-way.	<b>NOE</b>	
2002018292	Leasing of Office Space Corrections, Department of Stockton--San Joaquin The Department of Corrections is proposing to lease approximately 23,023 net usable square feet of office space.	<b>NOE</b>	
2002018293	Sonora Radio Maintenance Shop General Services, Department of Sonora--Tuolumne The Department of General Services, Telecommunications Division proposes to lease approximately 1,050 square feet of existing space to house telecommunications equipment. Plans call for three non-exclusive parking spaces and one employee will work at the facility.	<b>NOE</b>
